

MISS ANTHROPOCENE

lyrics by

CLAIRE ELISE BOUCHER

So Heavy I Fell Through The Earth

O silly love
Coming here
When I said, "Go"

Weigh me down
O love
Me now
O love

Yeah, oh
So heavy, I fell through the earth
Yeah, oh
'Cause I fucking love
Yeah, oh
So heavy, I fell through the earth
Yeah, oh
'Cause I'm full of love from you

O silly love
Coming here
When I said, "Go"

Weigh me down
O love
Me now
O love

Yeah, oh
So heavy, I fell through the earth
Yeah, oh
'Cause I fucking love
Yeah, oh

So heavy, I fell through the earth
Yeah, oh
'Cause I'm full of love from you

So heavy I fell
Through the earth, baby
So heavy I fell
Through the earth, baby
So heavy I fell
Through the earth, baby
So heavy I fell
So heavy I fell
So heavy I fell

Darkseid

With 潘 PAN

Unrest is in the soul
We don't move our bodies anymore
Unrest is in the soul
We don't move our bodies anymore

The skin of my back secretes the shadow slowly
My front side spits out some oil
Woken up by your death
My skin opens an invisible wound
Takes your death in to be part of my existence

I can still function but I can't take out the broken part inside my brain
If I turn my face up to the light
You can see my lips are full of the messy ghosts finger prints
As they are trying to open my jaw wildly
Cause they think I can issue an amnesty

But they turn out to be distracted and fascinated by the stiff and white
caves deep in my throat
Those caves is full of my saliva
When the tide raises upon the moon
They turn into tears mostly

When the tide is out
My thoughts die inside the caves
Become some dark green
Algae-like decorations on the stones

Unrest is in the soul
We don't move our bodies anymore
Unrest is in the soul
We don't move our bodies anymore

I live with my ignorance
And walk slowly, unconsciously toward the death
All my little struggles form a quiet and stable structure like the bubbles
Stay still on the surface of my daily life

But maybe
Our lives can be interpreted into a long lasting sacrifice
People surrounding you yell all the useless advices at you sincerely, with
all their sweet passion

I don't understand who is there to be dedicated everything for,
Or what this funeral really means
I don't understand why it's you to sacrifice this time
And why rest of us are left behind and alive?

I repeatedly dream of and forget about、 ,
The exploded stars
Traveling for million lightyears but no one really cares

I die a little, get worn a little
The fire have burn you burns me too
I am not special, I am just a survivor

Unrest is in the soul
We don't move our bodies anymore
Unrest is in the soul
We don't move our bodies anymore

What does it take to be a survivor?
Your death becomes part of the eternal pain of my body

Unrest is in the soul
We don't move our bodies anymore
Unrest is in the soul
We don't move our bodies anymore

Delete Forever

Lying so awake
Things I can't escape
Lately, I just turn 'em into demons

Flew into the sun
Fucking heroin
Lately, I just turn 'em into reasons and excuses

Always down when I'm not up
Guess it's just my rotten luck
To fill my time with permanent blue

But I can't see above it
Guess I fucking love it
But, oh, I didn't mean to

I see everything
I see everything
Don't you tell me now that I don't want it

But I did everything
I did everything
More lines on the mirror than a sonnet

Funny how they think
Us naive when we're on the brink
Innocence was fleeting like a season

Cannot comprehend
Lost so many men
Lately, all their ghosts turn into reasons
And excuses

Always down when I'm not up
Guess it's just my rotten luck
To fill my time with permanent blue

But I can't see above it
Guess I fucking love it
But, oh, I didn't mean to

I see everything
I see everything
Don't you tell me now that I don't want it

But I did everything
I did everything
More lines on the mirror than a sonnet

I see everything
I see everything
Don't you tell me now that I don't want it

But I did everything
I did everything
More lines on the mirror than a sonnet

Violence

I'm, like, begging for it, baby
Makes you wanna party, wanna wake up
Baby, it's violence, violence
Baby, it's violence

But you can't see what I see
You can't see what I see
'Cause you, ha, ha, you feed off hurting me
Off hurting me, yeah, ha

I'm, like, begging for it, baby
Makes you wanna party, wanna wake up
Baby, it's violence, violence
Baby, it's violence

But you can't see what I see
You can't see what I see
'Cause you, ha, ha, you feed off hurting me
Off hurting me, yeah, ha-ha

You wanna make me bad, make me bad
And I like it like that, and I like it like that
You wanna make me bad? Pay me back
Said, "I like it like that," said, "I like it like that"

I'm, like, begging for it, baby
Makes you wanna party, wanna wake up
Baby, it's violence, violence
Baby, it's violence

But you can't see what I see
You can't see what I see
'Cause you, ha, ha, you feed off hurting me
Off hurting me, yeah

You wanna make me bad, make me bad
And I like it like that, and I like it like that
You wanna make me bad? Pay me back
Said, "I like it like that," said, "I like it like that"

You wanna make me bad, make me bad
And I like it like that, and I like it like that
You wanna make me bad? Pay me back
Said, "I like it like that," said, "I like it like that"

You wanna make me, make me
Make-make me, make me, make-make me, make me
And I like it like that, and I like it like that

You wanna pay me, pay me
Pay me back-back, pay me back
Said, "I like it like that," said, "I like it like that"

And I like it like that
And I like it like that
And I like it like that

4ÆM

O—

Aphrodite
I wrote your constellation
Into the sky
S-s-s-s-s-sa
Suns at night

I'm out late at 4ÆM
He says, "How's the weather, baby? How've you been?"
You're gonna get sick
You don't know when
I never doubt it at 4ÆM

I'm out late at 4ÆM
He says, "How's the weather, baby? How've you been?"
You're gonna get sick, you don't know when
I never doubt it at 4ÆM

4ÆM, 4ÆM
Falling down again
Unraveling

Aphrodite
I wrote your constellation
Into the sky, ooh
S-s-s-s-s-sa
Suns at night

I'm out late at 4ÆM
He says, "How's the weather, baby? How've you been?"
You're gonna get sick
You don't know when
I never doubt it at 4ÆM

I'm out late at 4ÆM
He says, "How's the weather, baby? How've you been?"

You're gonna get sick
You don't know when
I never doubt it at 4ÆM

Na-na-na
Na-na-na
Na-na-na
Na-na-na
Ah

Na-na-na
Na-na-na
Na-na-na
Na-na-na
Ah

4ÆM, 4ÆM
Falling down again

I'm out late at 4ÆM
He says, "How's the weather, baby? How've you been?"

You're gonna get sick
You don't know when
I never doubt it at 4ÆM

I'm out late at 4ÆM
He says, "How's the weather, baby? How've you been?"
You're gonna get sick (Falling down again)
You don't know when
I never doubt it at 4ÆM

4ÆM
4ÆM
4ÆM
4ÆM

4ÆM
4ÆM
4ÆM
4ÆM

4ÆM
4ÆM
Falling down again

4ÆM
4ÆM
Falling down again

I'm out late at 4ÆM
4ÆM
4ÆM
Out late at 4ÆM

I'm out late at 4ÆM
4ÆM
4ÆM
4ÆM
I'm out late at 4ÆM, oh, oh

Falling down again
Falling down again
Oh

New Gods

Oh, you're all I know
But what can I do if I can't see you?
It's too bright

Broken glass that shines like Northern Lights
So I pray
But the world burns

And still, you need to come first
So I don't know where you stand

Are you a man?
Are you something I can't stand?

Hands reaching out for new gods

You can't give me
What I want

But what do I know? Oh
What do I know?

I wanna let go, I
I wanna, wanna, wanna let go
I wear black eyeliner, black attire, yeah

So take me higher and higher and higher

But the world is a sad place, baby
Only brand new gods can save me
Only brand new gods can save me
Only brand new gods

Hands reaching out for new gods
You can't give me
What I want

Hands reaching out for new gods
You can't give me
What I want

My Name Is Dark

So, we party when the sun goes low
Imminent annihilation sounds so dope

I'm not shy but I refuse to speak
Because I don't trust you to understand me

You know me as
The girl who plays with fire
But this is the song
I wrote you in the dark

(I hear they're calling my name)
I'm not gonna sleep anymore

(I hear they're calling my name)
I'm not gonna sleep anymore

The boys are such a bore
The girls are such a bore
I never trust the government
And pray to God for sure, yeah

I don't need to sleep anymore
That's what the drugs are for

Every city has a place like this
Underneath the bridges
Where the tainted kiss

Put on "Bullet with Butterfly Wings"
So that I can sing along
While I break things

You know me as
The girl who plays with fire
But this is the song
I wrote you in the dark

Ooh, you know me as
The girl who plays with fire
But this is the song
I wrote you in the dark

(I hear they're calling my name)
I'm not gonna sleep anymore
I'm not gonna sleep anymore

The boys are such a bore
The girls are such a bore
I never trust the government
And pray to God for sure, yeah

I don't need to sleep anymore
That's what the drugs are for

Paradise on my right
And h-h-hell on my left
The a-a-angel of death
Right behind me

Paradise on my right
And h-h-hell on my left
The a-a-angel of death
Right behind me

Paradise on my right
H-h-h-hell on my left
And the angel of death
She said to God

"Un-fuck the world
Un-fuck the world
You stupid girl
You stupid girl

Oh, oh
I'm not gonna sleep anymore
I'm not gonna sleep anymore

The boys are such a bore
The girls are such a bore
I never trust the government
And pray to God for sure, yeah

I don't need to sleep anymore
That's what the drugs are for
That's what the drugs are for
(Anymore, that's what the drugs are for)

The boys are such a bore
The girls are such a bore
I never trust the government
And pray to God for sure, yeah

The boys are such a bore
The girls are such a bore
I never trust the government
And pray to God for sure, yeah

You'll Miss Me When I'm Not Around

I shot myself yesterday
Got to Heaven anyway
Think I might regret it now
Tie my feet to rocks and drown

If you don't bleed
Then you don't die
Cross my heart and hope to
Fly

If you like it, then
You'll make it out alive

If they could see me now
Smiling six feet underground
I'll tie my feet to rocks and drown

You'll miss me when
I'm not around

Last call, last call
(You'll miss me when
I'm not around)

Last call, last call
(You'll miss me when
I'm not around)

Promise if I make it
I'll kiss you good night
(I'll see you underground)

You'll miss me
When I'm down

You'll miss me
When I'm down

Hurt myself again today
Doesn't matter anyway

(You'll miss me when I'm gone)

I'll make it to Heaven even if I
Have to climb the clouds
And learn to fly

If you don't bleed
Then you don't die
Cross my heart and hope to
Fly

If you like it, then
You'll make it out alive

If they could see me now
Smiling six feet underground
I'll tie my feet to rocks and drown

You'll miss me when I'm not around

Last call
Last call
(You'll miss me when I'm not around)

Last call
Last call
(You'll miss me when I'm not around)

Promise if I make it
I'll kiss you good night
(I'll see you underground)

You'll miss me
When I'm down

You'll miss me
When I'm down

Last call
(You'll miss me when I'm not around)
Last call
(You'll miss me when I'm not around)

Promise if I make it
I'll kiss you good night
(I'll see you underground)

You'll miss me
When I'm down

You'll miss me
When I'm down

You'll miss me
When I'm down

You'll miss me
When I'm down

You'll miss me
When I'm down

You'll miss me
When I'm down

Before The Fever

(Oh-oh, oh-oh)
(Oh-oh-oh, oh-oh)

I tease my little ashtray
With a burning cigarette
I don't want to run away
I don't even know you yet

I got everything you want
I can make it feel so wet
I'm a little bit in love with you
I can take your picture, baby

This is the sound of the end of the world
Dance me to the end of the night
Be my girl

Madness, intellect, audacity
Truth and the lack thereof
They will kill us, oh,
Have no doubt

There are many ways in
But there's only one way out
There's only one way out

There's so many ways in
But there's only one way out

This is the sound of the end of the world

I get lost
Can you get lost with me, baby?

I get lost
Can you get lost with me, baby?

I get lost (I get lost, I get lost)
I get lost (Can you get lost with me, baby?)

(Lost)
(I get lost) (Lost with me, baby?)
(I get lost)
(There's a way through, ooh)
(There's always a way through)
(Ooh-ooh)
(Oh-oh, oh-oh, oh-oh)

IDORU

You are the only one
Babe, I was so numb
And even though I'm breaking, at least
I feel something (Just like release)

Look, I say
As my fingers tremble
This is what I am

And, and, and you
Fingers tremblin' too
Understand

Yeah, we could play a beautiful game
We could play a beautiful game

You could chase me down in the name
Of love

I wanna play a beautiful game
Even though we're gonna lose

But I adore you
Adore you

You are the only one
Babe, I was so dumb, ooh, ooh
And even though I'm breaking, at least
I feel something (How can you be so mean?)

Choose, I say
As my fingers tremble
This is who I am

And, and, and you
Fingers tremblin' too
Understand

Yeah, we could play a beautiful game
We could play a beautiful game

You could chase me down in the name
Of love

I wanna play a beautiful game
Even though we're gonna lose
But I adore you
Adore you

Unrequited love has reassembled me
I think it's crazy

And if you said I do
I'd reassemble you, baby

And you're so cool
'Cause you don't think you're cool

You can abuse it
Because you made my all-time favorite music

We could play a beautiful game
We could play a beautiful game
You could chase me down in the name
Of love

I wanna play a beautiful game
Even though we're gonna lose
But I adore you
I adore you
So, I ignore you

We could play a beautiful game
We could play a beautiful game

You could chase me down in the name
Of love

But there you are, getting away
Think we finally lose
But I adore you

I adore you
I adore you, oh
I adore you
I adore you
I adore you

You
You
You
You
You
You
You, You, You
